☐ Continuation Sheet Attached

Brief Description of Argument to be Presented:

The Examiner appears to neglect the limitation of "introducing outside air into the reduced pressure environment while maintaining the pressed state and the curing temperature," as recited in claim 1.

Applicants' representative would like discuss what is relied on in the cited prior art for this feature.

An interview was conducted on the above-identified application on May 21, 2008.

NOTE: This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
